I will be offering hazard reduction services once again this Spring, and it is time for me to begin making preparations for this activity. As a result of having done extensive work in many of your yards in the past I am hopeful that only raking and load/haul/disposal services will be required this year, thus eliminating sawing charges as well as reducing the volume of debris that was generated in many of your yards in past years.. A reminder--in addition to the removal of flammable vegetation for a minimum of 100' from your structures and pruning trees to a height of 10 feet, your ROOF must be free of NEEDLES and overhanging DEAD BRANCHES. If you wish these "above ground" services please indicate so on your reservation and I will have the tree trimmer contact you directly. We would then coordinate the work so that his is done prior to the yard cleanup.

My rates for services this year are:

- Labor - \$28.00/hr.
- Load/haul/disposal - \$26.00/cu.yd.(as measured on the ground)
NOTE: For those only requesting load/haul/dispose services, this includes a maximum of two curbside piles. An additional fee will be charged if numerous piles are created or the curbside piles are not accessible by tractor (you may contact me prior to raking your yard for pile location instructions so as not to incur additional charges).
- Sawing/Pruning \$45.00/hr.

Work will commence as soon after May 1st as conditions will allow. Please reserve your place on our list as early as possible as I may not be able to honor requests received after May 15, or, as in the case of Appleridge/Meadowridge or Ridgetop, we have since moved out of your subdivision (since these are typically the first serviced). You may cancel your reservation at any time prior to the work being done.

Sincerely,

Bill Paloutzian
